

For Immediate Release

Plantation Services Inc.  
Charleston, South Carolina  
July 27, 2020

For the first time in over 100 years, Ramsey Grove Plantation near Georgetown is being offered for sale. Tom Anderson, Senior Vice President with Plantation Services, announced that their firm has been selected as the exclusive marketing agent to sell Ramsey Grove. Mr. Anderson said, “the property contains 2,689 acres fronting on the Black River and has been meticulously managed for wildlife, most notably waterfowl.” Anderson added, “Ramsey Grove was established in 1731 by a land grant from King George II and has been used for decades as a hunting and retreat venue for business”. Under a court settlement, Ramsey Grove, among certain other SCANA Corporation properties, is being sold to refund in part rate payers who brought suit related to the failed VC Summer Nuclear Station in Fairfield County.

Plantation Services is a real estate and land management company founded in 1959 with offices in Charleston, South Carolina and Albany, Georgia.
